50X1-HUM

50X1-HUM

Probable SS-N-3 missile on dolly in opening in fence at center. Floating jib crane PK-101050 and MP-4-class cargo landing ship

Probable SS-N-3 missile on dolly in opening in fence at left. MP-4-class cargo landing ship, quay, and portal jib crane

Modified W-class guided missile submarine (LONG BIN) and floating jib crane PK-101050 alongside floating pier. Canvas-covered objects and crates, possibly missile-associated, in opening in fence.

Modified W-class guided missile submarine (LONG BIN) and floating jib crane PK-101050, alongside floating pier. Crates, possibly missile-associated, in opening in fence.

Modified W-class guided missile submarine (LONG BIN) and floating jib crane PK-101050, alongside floating pier. Dark object, probably crate, in opening in fence.

2. The [probable missile] in the opening in the board fence was observed being withdrawn until it disappeared behind the fence. Two people came up from the floating pier and disappeared behind the fence at the same time as the [missile].

1. Comment: The visible measurements of the probable SS-N-3 missile are: visible length about five meters; tail [sic] diameter 80 to 90 centimeters; booster length 160 centimeters; booster diameter 25 centimeters; total tail [sic] diameter including boosters 170 centimeters.

2. Comment: Clearly visible along a substantial portion of the after section of the missile are two rocket-assist take-off units. A tail pipe protrudes from the fuselage. No tail surfaces are apparent.
